PAIRS is a brief and focused program. It's an experiential workshop with the most important and essential skills to change the very foundation of how we communicate and build relationships with our loved ones. It is about how we express ourselves, and about how we make it safe for others to confide in us and how we resolve conflict and differences between us.

Primary Goals of PAIRS include:

1. Promoting Effective Communication
2. How to Strengthen the Ability to Connect and Confide
3. Effective Decision-Making and Conflict Resolution
4. Strengthening Trust and Sustaining Commitment
